

Manuscript Format for International Journal of Electrical Machining

Author Number 1*, Author Number 2**, Author Number 3***
(Received Jan.1, 2007)

* Department of Mechanical Engineering, Tokyo University, Tokyo 113, Japan
** Industrial Research Center of Okayama Prefecture, Okayama 700, Japan
*** Japan Electric Corporation, Nagoya 461, Japan

Abstract

A short abstract (not more than 150 words) should be written across both columns using 10 point font. The abstract should state clearly and concisely the purpose of the Paper, methods used and conclusions reached. It must be possible to obtain a general understanding of the Paper from the abstract alone, without referring to the main text. Authors should write the abstract with the intension of providing as much information as possible.

Key words: Insert the key words (not more than 5) immediately after the abstract in small letters.

1. PAPER AND REVIEW

1.1 Size and Style

Manuscript should be printed on white A4 paper (210mmx297mm). The text should be arranged in a two-column format (except title, author and abstract) within the following dimensions; each column 75mm wide with 10mm middle margin, total width of 160mm and length of 225mm.

1.2 Margins

The text must have at least 30mm margins on top and 25mm both left and right sides.

1.3 Spacing

The spacing is recommended about 4mm.

1.4 Fonts

This format is produced using a 10point Times except title. Equivalent fonts are recommended.

1.5 Length

The length of a Paper or Review should be 4-6 pages. A Paper of over 6 pages is requested extra charge.

1.6 Title

Paper title should be typed from the top margin by 10mm and centered in larger type shown above (12point boldfaced if possible).

1.7 Author(s) and Date of Receipt

Name of author(s) should be centered under title referred by symbols, e.g., *, +. Under author(s) name, the date of receipt should be centered which will be notified later by the Paper Review Committee. Affiliation(s) and address(es) should be typed under the date of receipt after corresponding symbols positioned in flush-left with the left margin.

1.8 Headings

Major headings should be typed in capital letters and aligned flush left with the left-hand margin of the column. Subheadings should be typed with the initial letter of each word capitalized and positioned

flush left.

1.9 Tables and Illustrations

Tables and illustrations should be clear, sharp, and high quality. They should be arranged throughout the text, preferably being included on the same page as they are first discussed.

1.10 Photographs

Black and white photographs should be clear and sharp, with scales included as needed. Color photographs are not acceptable.

1.11 Acknowledgments

Acknowledgments may be made to individual or institutions not mentioned elsewhere in the paper who have made an important contribution. Do not number this heading.

1.12 References

References should be numbered consecutively using superscript numbers with right parentheses, thus^{1), 2)} or³⁾⁻⁵⁾.

1.13 Page Numbering

Please number each page on the back of each sheet in pencil. Do not number the pages on the front.

2. NOTE

The format of a Note is roughly the same as that for a Paper, but dose not include an abstract. The length of a Note should be not more than two pages.

(Revised January 2007)
